

SISTEMA RESPIRATORIO:

MATERIALES:

2 popotes

Hojas de color para nariz, boca y pulmones.

2 bolsas de plástico

Cinta adhesiva

The image shows a child sitting and using a model of the human respiratory system. The model consists of two pink balloons representing lungs, connected by purple straws representing the trachea and bronchi. A red paper mouth and a white paper nose are attached to the top of the straws. The child is holding the top of the straws with both hands. The background is a purple panel with text and a logo.

Datos curiosos

#SABIÁSQUE

- El pulmón derecho es ligeramente más grande que el izquierdo.
- Los pelos de la nariz ayudan a limpiar el aire que respiramos, además de calentarlo.
- La velocidad más alta registrada para un estornudo es de 165 km/h.

Logo of Colegio Sagrado Corazón, featuring a shield with a cross and a figure, surrounded by the text "Colegio Sagrado Corazón".
